MONDAY, APRIL 29.

THIS IS BUSINESS.

The advertising columns of a paper are an infallible gauge of the enterprise of the town in which the paper is published. * * *. The New Mexican is an elegant in its development more potent for good than all others combined; yet its advertising patronage is the most beggarly in the territory .- Las Vegas Optic, April

The silver wings are flying on to vic-

Florence, Colo.

THE government of Canada is also confronted with a treasury deficit of probapaper naively remarks that, in his speech for the throne on the re-assembling of parliament recently, "Lord Aberdeen expansion of the subject."

Is during remarks that, in his speech for the throne on the re-assembling of ing is the fact that the presidential campaign of 1896 will be inagurated previous sale, animals not bearing vendor's brand. Blanks entitled, "Authority to gather, this body, and that it is thus necessary drive and handle animals not bearing

the common name of Newgate prison, London, one of the oldest and most sombre looking jails in the world. It was built about 200 years at 1 and 1 built about 600 years ago. It is called "Bailey" because it is a place where criminals are confined who might give bail, and "Old Bailey" in contradistinction from terests—should unite in an effort to obtain a worthy result at Albuquerque. the "New Bailey," a modern jail in which tain a worthy result at Albuquerque. civil offenders who might give bail are

cause. As long as Colorado, true and be composed as follows: loyal to the cause though she be, took the lend in demanding justice for silver the at the proposition as one purely in the now alive to the true merits of the case this charge can no longer stand.

THE official call for the meeting of the THE official call for the meeting of the National Irrigation convention appears ated, to be appointed by the governor elsewhere in to-day's New Mexican. Every citizen should accord his moral support toward making this gathering a great success. It is the first national convention ever held in New Mexico. It is the tarritory a class will serve to bring to the territory a class of people with whom we must keep in touch if we hope to prosper, and it will in many ways serve to give New Mexico a desirable notoriety that otherwise it would be hard to secure.

A FINAL SETTLEMENT COMING.

It isn't silver alone that is back of the remarkable uprising among the masses now witnessed as floating over this coun try. It is a final settlement the people are demanding for many wrongs of long standing, chiefly the outgrowth of Republican legislation, for is it not such legislation during the past thirty years that must be held responsible for the spectacle, pitiable indeed, that one sees infringing the rights of citizens on every side? Under the operation of these laws to-day a handfull of men have been able to combine, "corner" and now actually control all the bread stuffs, sugar, meats and their products, kerosene, glassware, distilled HATS, CAPS, GEOVIES. and malt liquors, ironware, and what not, consumed by the American people. Why, they actually have a combine that regulates the price of coffins. This same legislative methods has debased silver, dictates the price of lead and copper, and is now engaged in its final coup, the organization of a gold trust. Settle the silver question and these wrongs will be undone. The people have at last had their eyes opened to this fact, hence the present movement.

THE ACRICULTURAL COLLEGE.

Last week we mentioned the fact that Demetric Chavez, the Dona Ana county treasurer, was short in his accounts to the county to the amount of \$11,000 and that D. P. Carr, of Pinos Altes, the genthat D. P. Carr, of Pinos Altos, the gentleman appointed by Gov. Thornton to investigate the affairs of the Agricultural college, had recommended that his name be removed as one of the regents and treasurer of the college, and now the people of Dona Ana county want to know why it is that the money he has in hand is not turned over to the county or why he is not forced by action of law to pay up.—Rincon Weekly.

The statement that "Mr. Carr had been appointed by Gov. Thornton to investigate the affairs of the Agricultural col-

The Daily New Mexican Scrofula Miss Della Stevens, of Boston, Mass., writes: I have Secretary ways suffered from hereditary Scrofula, for which I tried various remedies, and for which I tried various remedies, and many reliable physicians, but none relieved me. After taking six bottles of I am now well. I am very grate ful to you as I feel that it saved me from a life of untold agony, and shall take pleasure in speaking only words of praise for the wonderful medicine, and in recommending it to all. in recommending it to all,

Treatise on Blood and Skin Diseases mailed from SWIFT SPECIFIC CO., ATLANTA, GA-

lege" is not true. It is, however, a fact that Mr. Carr, of his own volition, paid a visit to Las Cruces recently and as a result he has preferred charges against one of the regents, Mr. Chavez, which he laid before the governor and which are now

under executive investigation.

As before stated in these columns, the chief difficulty in which this justitution is involved grows out of the petty, factional quarrels in the board of regents. The Lordsburg Liberal puts it well when it says: "It might be well for the friends and foes of the past and the present administrations of the college to remember that there are people and papers in the territory that desire to see the college accomplish all that is possible and refuse to have anything to do with any political squabble over the institution. Polities has no business in the conduct of the

Official Call for the Fourth National Irrigation Congress

By the authority of the national execu tive committee, the Fourth National Irripaper—an honor to Santa Fe, and a factor gation Congress is hereby called to meet in the city of Albuquerque, N. M., for the four days beginning September 16, 1895.

The present year is proving to be the most remarkable in the history of American irrigation. It has seen a wonderful awakening of popular interest in the cause throughout the east, resulting in the organization of most potential forces for the purpose of co-operating with the western people; the enactment of well considered irrigation laws in eight states, and the creation of administrative sys-Kenosene, the great artificial elevater of hired girls, made a notable upward bound as soon as the Continental company secured control of the oil wells at board of irrigation has been formed from officials in various departments of the

government. These splendid evidences of the triumphant progress of the irrigation cause fronted with a treasury deficit of proba-bly \$10,000,000. But a Canadian news-tive session of the irrigation congress in paper naively remarks that, in his speech 1895. A further reason for such a gather-Doubtless he has "a mortal cinch" on his own munificent salary and the people be hanged.

The people be mands which the friends of irrigation will desire to make upon the great political parties of the nation.

In view of the nature of the oppor-"Inquining correspondent" is hereby tunity, a program of extraordinary varespectfully informed that "Old Bailey" is riety, interest and importance will be

POZZONI'S

Combines every element of beauty and purity. It is beauti-fying, soothing, healing, healthful, and harmless, and when rightly used is invisible. A most delicate and desirable protection to the face in this climate.

Insist upon having the genuine.

IT IS FOR BALE EVERYWHERE,

The PECOS VALLEY **NEW MEXICO**

FFERS unequaled advantages to the farmer, fruit grower, live stock raiser, dairyman, beekeeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canagre—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and

health restoring.

Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Feliz section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acres tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts, are being planted to orchards and will be entitysted and cared for by the company for three these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

FOR FULL INFORMATION REGARDING THE PECOS VALLEY WITH COPIES OF ILLUSTRA-

The Pecos Irrigation and Improvement Company, Eddy, N. M., or Colorado Springs, Colo.

The stockmen of the southwest will please take notice that, in order to meet the requirements of law, the New Mexican keeps constantly in stock three forms of blank bills of sale as follows: Bills of sale, range delivery; bills of sale, animals bearing vendor's recorded brand; bills of owner's recorded brand" and "Authority to gather, drive and handle animals bearing owner's recorded brand" are also always kept on hand at this office. In order to avoid mistakes or delays persons ordering blanks should carefully desig-

nate which form or forms they want.

The law requiring the use of these blanks or kindred instruments in writing is very stringent. Persons failing to comply with its requirements in this respect are subject to a fine of not less than \$50 nor more than \$200 for each offense

AMERICA'S LEADING REVIEW

\$3.00 PER YEAR. 25c. a Number. For Sale Everywhere. mmmi

THE FORUM will take up for discussion, during 1895, an unusually wide range of timely and important topics by the most eminent writers in the fields of Politics, Finance, Sociology, Literature, Religion, Art, and Science.

To read The Forum is to keep in touch with the best thought of the day.

To be without line Forum is to miss the best help to clear thinking.

A catalogue of the writers who have contributed articles to THE FORUM in the past would embrace practically every man of emineuce in America, and most of those in Europe. A list of subjects treated would cover in the widest degree all topics of contemporaneous interest. THE FORUM is therefore of inestimable value to any one who desires to keep closely in touch with the best of current thought.
